

A trusted, experienced partner to meet your accounting needs

Why do we do accounting? We do this because we know that an accurate understanding of the numbers leads to a more successful company. Successful companies lead to happier clients.

Our accounting practice is specific to the funeral and cemetery business. We know accounting and we know your industry. Our approach is to provide a tiered offering for your accounting needs. We offer a basic or complete accounting service based upon your needs. All of our offerings include our Strategic Performance Analysis, which is a consultive review and analysis to help you make confident business decisions.

No one knows the funeral service and cemetery businesses better than we do. No one knows your business better than we will.

We advise our clients with both insight and foresight on strategies to improve their profitability, grow their business and ensure a brighter future.
